

Authorized Mooring Inspectors
(Listed Alphabetically and Revised July, 2006)

All moorings in Portland Harbor must be inspected every TWO YEARS (every other year) BEFORE the mooring is used, by an inspector who has been authorized by the Portland Harbor Master. All moorings, including new set-ups, require a Mooring Inspection Certificate that has been completed by the mooring inspector. The inspection certificate must be submitted to this office before the mooring is used.

Affordable Mooring Service	799-8481 (Craig Tanner)
